

Dear AP students

It has proven beneficial over the past several years for some Governor’s School AP classes to meet before the official opening of school to get a head start on the very large task they are trying to accomplish by the beginning of May. This year only four classes are doing “early AP”; **BC Calculus, Chinese, Latin and Physics**. Other teachers, no less committed to your success, may feel that the material can successfully be mastered without the need of this extra time. This program is voluntary and for those students who cannot attend, your teacher will work with you to catch you up with the rest of the class. The school can neither provide transportation nor lunch. We hope you will make every effort to attend.

The room number where you will be meeting is indicated in the time block in which you will be meeting. This is followed by the dates you will be meeting in parentheses. Please note the days of meeting carefully as it is not the same for all classes.
