

ELECTRONIC ROOM PARTITIONS

No school employee opens or closes an electronic room partition in the school building unless

- i. no student is present in such building,
- ii. (a) no student is present in the room or area in which such partition is located and
(b) such room or area is locked or otherwise inaccessible to students, or
- iii. such partition includes a safety sensor that automatically stops the partition when a body passes between the leading edge and a wall, an opposing partition, or the stacking area.

Any annual safety review or exercise for school employees includes information and demonstrations, as appropriate, regarding the provisions of the previous paragraph.
