

NON-LOCALLY FUNDED PROGRAMS

In order to further the goals and objectives of the school, the regional school board may seek sources of revenue to supplement the funds provided through local, state and federal funding.

To promote efficiency in developing proposals and making application for specially funded programs, the director may establish procedures for the preparation of proposals and their review. The director shall ensure that none of the conditions of acceptance is in conflict with the policies of the regional school board, the objectives of the school, or state or federal law.

The director or director's designee may submit proposals or applications for grants prior to approval by the regional school board. No such application or proposal shall be binding on the regional school board without its approval.
