

REMEDATION RECOVERY PROGRAM

The Maggie L. Walker Governor’s School Regional Board supports efforts to provide instructional support to those students who have demonstrated a need for such support by their failure to pass certain Standards of Learning (SOL) assessments. Therefore, in grades 9 through 12, students may participate in a remediation recovery program as established by the Board of Education in English (reading) or mathematics or both.

Adopted: October 15, 2020
