

POLICY IMPLEMENTATION

Development of Regulations

The Regional School Board authorizes the director to create and update regulations necessary to carry out the policies adopted by the Regional School Board. If Regional School Board action is required by law or the Regional School Board asks that certain regulations or types of regulations be approved by the Regional School Board, the director will present those to the Regional School Board for action. The director makes all regulations available to Regional School Board members, employees and the public and sees that the regulations are placed in the Regional School Board Policy Manual or are kept with the Policy Manual.

Dissemination of Policies and Regulations

Administrators and supervisors are responsible for informing staff members of all newly adopted or revised policies and regulations.
