

ACCELERATION GRADING

Academic acceleration is provided through the availability of advanced placement courses and dual enrollment courses. Qualified students can take advanced/accelerated courses as early as they can benefit from them. This, along with a full schedule of classes each year, allows some students to engage in highly advanced/accelerated studies.

If a student's work is accelerated in one or more subject areas, the student's grades shall be based on the student's mastery of the accelerated curriculum.

Adopted: October 19, 2023
