

TWO-WAY COMMUNICATION SYSTEM

The authority of the Regional School Board is transmitted through the executive director along specific communication channels from person to person, as shown in the school's organizational chart. The purpose of the school's organizational chart is to delineate each employee's relationship to others.

Each employee of the school shall be instructed as to their responsibilities; the title and authority of the administrator from whom such instructions are expected; and the relationships of all personnel exercising direct, indirect, technical, or administrative supervision over them.

Any problem that any school employee cannot solve by their own efforts, within the limits of their authority, shall be referred to the employee's immediate supervisor.

Each employee shall be informed of the grievance procedure by which they have the right to appeal administrative decisions.

The executive director shall conduct an annual review and evaluation of the school's organizational chart.
