

CIVIC LEAVE

Maggie L. Walker Governor's School encourages involvement of its employees in public service to include appointments to public committees, commissions, and boards or to serve as an elected official. If a qualified replacement can be obtained, leave without pay, will be granted by the executive director. The executive director will approve the leave in advance for only those days directly related to the responsibilities inherent with the specific civic obligation. Employees seeking such approval do so with the understanding that such appointments could impact other professional assignments.
